

Lease Financing

More than 80% of U.S. companies utilize lease financing to obtain some or all of their equipment and one-third of all capital expenditures in the nation are done through equipment financing.

- **Affordable 100% Financing** – Finance all your equipment (lanes, fixtures, hardware, self-checkout technology), software purchases, point-of-sale integration, installation and even construction costs and freight.
- **Tax Advantages** – Leasing provides great opportunities for tax benefits. You may even be able to fully expense the payments.
- **Preserve Cash with Low Down Payment** – Lease financing requires minimal down payment or deposits.
- **Preserve Lines of Credit** – Keep your bank lines of credit for day-to-day business needs.
- **Flexible Payment Options** – Design a payment structure that meets your budgetary or cash flow needs with terms ranging from 24 to 84 months and a variety of flexible end-of-term options.
- **Obsolescence Protection** – Lease financing lowers your risk of getting caught with obsolete equipment and allows you to upgrade or add equipment to meet your ever-changing needs.
- **Ease & Convenience** – Applying for lease financing is quick and easy.
